Five Little Astronauts

Five little astronauts, flying in the stars

The first one said, "Let's go see Mars!"

The second one said, "There are comets in the air!"

The third one said, "There's an alien here!"

The fourth one said, "Let's fly up in the sky!"

The fifth one said, "Let's go up really high!"

Then, "Whoooosh" went the spaceship

"Buckle up tight!"

And the five little astronauts

Zoomed out of sight!
